RMS IB is an Inspection Body and as the management of the inspection body, we are committed to the principles of the ISO/IEC 17020 International Standard and SANAS, providing our clients with a professional inspection service in line with good business practice.

The inspection body offers the supply of services as an Inspection Authority for Inspection of Energy Performance Certificates for buildings according to the National Energy Act No. 34 of 2008. Resources necessary to manage and perform these inspection activities shall be provided at all times.

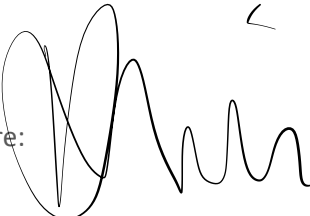

The RMS IB aims to provide a comprehensive inspection solution at a competitive price.

We shall remain impartial and independent towards our clients in every aspect of our inspection service. All information obtained or created during the performance of inspection activities, except as required by law, shall be kept confidential.

Top management and personnel are committed to implementing, upholding, and improving our management system to maintain competency in all our inspection activities.

We shall ensure that all inspection personnel are familiar with the documented system by providing appropriate training and assistance in inspection activities.

We shall conform to the requirements of the ISO/IEC 17020 International Standard, DMRE, and additional SANAS requirements as documented and adopted in the management system and achieved stated objectives.
